

STATIONARY BACKSTROKE START WEDGE

The Stationary Backstroke Start Wedge allows swimmers to perfect their backstroke takeoffs at their local pool for a fraction of the cost of other practice wedge systems. It utilizes the same non-slip wedge and straps of our top-of-the-line backstroke start device and easily attaches to nearly any starting block frame.

FEATURES:

- Improves foot grip for backstroke starts
- Easy to use
- Works with multiple styles of blocks
- Attaches with straps or anchors
- Easily adjustable
- World Aquatics, USA Swimming, and NCAA compliant when installed correctly

INCLUDES:

- Stainless steel hardware to resist corrosion
- Strap attachment

Part #1710083

NOTES:

- Anchor sold separately
