

# ERGONOMIC POOL LIFT SEAT

## Support You Can Rely On. Every Lift, Every Time.

Our ADA Pool Chair Lift Seat combines cutting-edge ergonomic design with enhanced safety features, providing individuals with mobility challenges a secure and comfortable pool experience. Featuring built-in handholds for extra support and draining channels for faster drying and improved hygiene, it ensures a worry-free, accessible solution for both private and commercial pools. Backed by ADA compliance, our lift seat enhances usability, safety, and durability—making it the perfect choice for facilities prioritizing accessibility and customer satisfaction.

### FEATURES:

- **Ergonomic Comfort:** The ergonomic design ensures maximum comfort and reduces pressure points during use.
- **Ease of Transfer:** Designed with multiple handholds to ensure a comfortable, secure, and independent transition in and out of the water, as well as to and from mobility devices.
- **Safety First:** Integrated handholds provide extra support for easy and secure transfers.
- **Hygienic & Durable:** Draining channels prevent water pooling, reducing the risk of slipping and promoting faster drying.
- **ADA-Compliant:** Fully ADA-compliant, meeting industry standards for accessibility and safety.
- **Made of rotomolded LDPE (low-density polyethylene)** material that repels water, is resistant to pool chemicals, and is highly impact-resistant, and flexible, allowing it to withstand constant use, bending, and pressure without cracking or breaking.
